Weather Monitoring & Forecasting

MONITOR ENVIRONMENTAL PARAMETERS

(precipitation, air temperature, leaf wetness, solar radiation, wind speed and more)

AND ENHANCE FIELD OPERATIONS PLANNING BASED ON WEATHER DATA.

iMETEO

Historic weather is important to understand what happened in the past. Future weather is important for planning and future activities. iMETEO brings these two aspects together.

Weather Monitoring & Forecasting

**ON FIELD
OR FARM**

When to seed? When to irrigate? How much to irrigate? When to spray and how much? When is it necessary to protect crops from frost? Our weather stations will help you make the right decision at the right time.

**Learn more about
our weather stations.**

for more than 35 crops.

iMETOS iSCOUT®

**MONITOR
INSECTS**

All inhabitants of your field
under full control.

**COMBINE
DATA**

iMETOS iSCOUT® is a
combination of hardware and
software solutions for remote
monitoring of different
agricultural and industrial insects.

**HIGH-RES
CAMERA**

The camera takes
high-resolution pictures of
the sticky plate within the
iMETOS iSCOUT®.

iMETOS iSCOUT®

iMETOS iSCOUT® Pheromone for
pheromone specific insects
(e.g. Codling moth)

iMETOS iSCOUT® Fruit Fly for catching
fruit flies (e.g. Spotted wing drosophila)

iMETOS iSCOUT® Bug for various types
of bugs (e.g. Stink bug)

iMETOS iSCOUT® Color Trap with sticky
plates of different colors

iMETOS CropVIEW®

**COMBINE
DATA**

Measure climate, soil and plant parameters, combine them with photos and monitor plants like a PRO.

Monitor climate, soil and plant variables and gain better understanding of how your crop is developing.

**MONITOR
THE FIELD**

iMETOS CropVIEW®

**CHOOSE
